

To Whom It May Concern:

This is to state that I have known **Vishwakarma Sneha** for past 2 month, working with Finlatics Generative AI Program. Fincrux is recognised as a 'Start - Up' by Department of Industry & Internal Trade (DPIIT), Ministry of Commerce & Industry, Government of India. It is one of start - ups selected for the prestigious incubation program at Atal Incubation Centre - NMIMS, supported by the Atal Innovation Mission, under the aegis of NITI Aayog, Government of India.

I had the opportunity to supervise **Vishwakarma Sneha** during the Finlatics Generative AI Experience Program. Throughout the program, **Vishwakarma Sneha** demonstrated strong proficiency in understanding and applying core concepts of Generative AI. Their learning journey began with mastering Neural Networks and extended to exploring advanced topics like Natural Language Processing (NLP) and Large Language Models (LLMs), showcasing a deep grasp of how machines comprehend and generate human-like language. **Vishwakarma Sneha** effectively applied this knowledge through hands-on projects, including prompt engineering, building a chatbot using the Google Gemini API, and conducting sentiment analysis with Hugging Face. Their strong understanding and application of Generative AI fundamentals enabled them to create innovative solutions and deliver meaningful insights using GenAI tools and techniques.
